

EOC

- 0830 - Initial Announcements & Preparation

- 146.800

Is the frequency in use? <break for double >

QST QST QST this is <my-callsign> operating as K7UNI, Kilo-Seven-Uniform-November-India for the Union-Wallowa County Amateur Radio Emergency Service Group.

The ARES group will be conducting the annual Spring Simulated Emergency Test today, April 18, 2020 between the hours of 9 am and 1 pm.

As with all of our exercises, any licensed amateur radio operators are welcome to participate.

The ARES group will be coordinating the exercise primarily on the local K7RPT repeater 147.260 MHz.

The 146.800 SSRA repeater as well as simplex 146.520 will also be monitored for exercise traffic.

We encourage everyone to monitor the exercise today and check in or help relay traffic whenever able. For more information about these exercises, please let us know or visit our website at unionares dot O-R-G.

K7UNI Monitoring

- Prepare for logging by completing the header portion of ICS214 from the Winlink/Standard Templates/ICS USA Forms.

- If you need to close your log at any time, please be sure to scroll to the bottom to choose Save. This allows you to save all entered data to your local computer. When you reopen the log, you can choose to 'Load...Data' near the top of the form and choose the appropriate file that you saved earlier.

- Update your RMS station list & check for latest EOC list from <http://unionares.org/eoclist>

- 0900 - Initiate call for operators – 147.260

Is the frequency in use? <break for double>

QST QST QST this is <my-callsign> operating as K7UNI, Kilo-Seven-Uniform-November-India for the Union-Wallowa County ARES Group.

ARES is conducting the annual Fall Simulated Emergency Test today, April 18, 2020 between the hours of 9 am and 1 pm. As with all of our exercises, any licensed amateur radio operators are welcome to participate.

Throughout this exercise, please be sure to begin and end all exercise traffic with the words "EXERCISE EXERCISE EXERCISE".

We will now begin calling for operators to assist with specific functions.

Are there any operators able to monitor for HF voice traffic? Any operator able to monitor the 75-meter voice band, please come now with your call sign only please. <break>

- (log each callsign & inquire further about availability)
- (assign the HF Voice Monitor if available, otherwise EOC will assume)
- <their-callsign> thank you, please assume HF Voice Monitor and operate as K7UNI on 3.955MHz LSB only. Please continue to use your own call sign during this exercise while exchanging traffic on all other bands and modes. Again, that is <their-callsign> immediately tune to 3.955MHz and monitor as K7UNI for incoming traffic. QSL?

This is K7UNI now looking for operators able to assist as local scanner relays. Operators able to scan local frequencies and relay traffic back to the Net please come now. <break>

- (log each callsign & inquire further about availability)
- (assign a local scanner relays if available, otherwise EOC will assume)

For this exercise, we will be assigning a unique facility ID to each operator and asking for weather reports periodically. Check-ins are encouraged to submit a log of any traffic they pass throughout the exercise so that it can later be checked for accuracy through relays. More information about submitting logs can be found at unionares dot O-R-G slash logs.

This is K7UNI now looking for operators able to assist as local Net Control for the EOWSET. Net Control stations, please come now with your call sign only please. <break>

- (log each callsign & inquire further about availability)
- (assign a net control if available, otherwise EOC will assume)

K7UNI Monitoring

- 0900-1300
 - Send an ICS213 form addressed to the EOC list using RMS gateways located in Canada/Mexico or MPS if defined. (Many local EOC's have defined K6SDR & K7DAV as their MPS)
 - Use the received ICS213 forms to reply to any messages received.
 - Request operators to fill functions as needed
 - Re-assign duties as needed/available.
 - Monitor & respond to traffic on the local Net addressed to K7UNI.

- 1300
 - Release Net Control and HF Monitor operators
 - Send ICS214 log to k7uni@winlink.org and jfouts@gmail.com
 - Thank everyone for participation
